

1 Start!

Place the card

Insert the card, making sure its orientation is correct, and hold it gently until the card is pulled in automatically.

When a card is inserted, the scanning start screen appears.

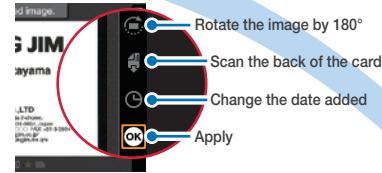

2 Make sure the card is put in place and press **Enter**

* Scanning will start automatically.

Turn the dial to make a selection

Enter Apply

3 Check/edit the image
→ Select **OK** and press **Enter**

4 Select the index (A, B, ...) and press **Enter**

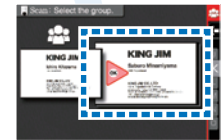

For example, select "K" for "KING JIM".
