4. Features

・Dual connectivity for PC and smartphone
Choose freely based on the location and occasion!

It can be used without taking up much space even in limited work space!

・High-speed printing & noiseless design
Compared to stand-alone models, the SR-R5600GS prints faster and cuts more quickly, and the time required for printing has been substantially reduced.
Additionally, it operates very quietly during automatic cutting.
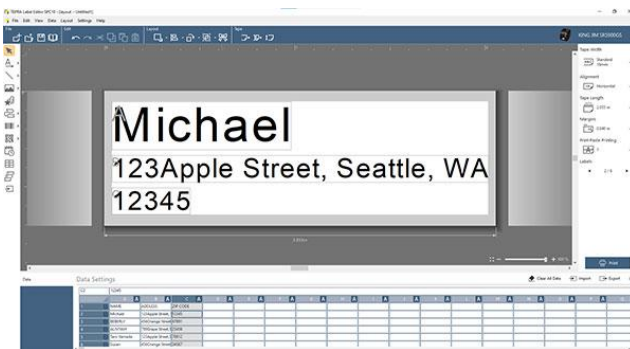

5. Applications

 TEPRA Label Editor SPC10   for Windows PC

Windows labeling software that enables easy, convenient, and more advanced label editing.
Easily edit label layouts and text on your PC to create labels without effort.
Freely use various fonts installed on your PC to create more attractive labels.

Successive Import Printing

Successive Import Printing accepts spreadsheet data such as CSV or Excel. The data will be inserted to label's layout.

Easily create custom barcodes

Create up to 15 types of barcodes including EAN-13, QR codes, and 2D barcodes.

5. Applications

TEPRA LINK2   for iOS/Android devices

This labeling app for iOS and Android allows quick and simple label creation. Label editing is intuitive, by "Snap to grid", "Guide lines", "Rotation", "Size change", and more.

Easily create and print labels with the app

Create labels whenever necessary with TEPRA.

You can print labels remotely via wireless connection.

Google Translate

Supports translation into 17 languages.

Create multilingual labels easily.
